DATE: July 16, 2018
TO: Environmental Commission
FROM: Matthew Best, Director of Public Services
CC: Ron Akers, Director of Planning and Economic Development
RE: Meeting Cancellation; Update to the Environmental Commission

After discussion with Chairman Brownlee, the July 18th, 2018 Environmental Commission meeting has been cancelled due to lack of agenda. I was also informed by Chairman Brownlee that the July meeting historically has been cancelled for member's summer vacations. Our next meeting will be August 15th, 2018.

I wanted to give a progress update on the lake drawdown efforts. Staff met with Eagle Creek, the Dam Operator, to discuss the drawdown and determine the necessary permits and coordination required for the drawdown. A letter was sent to Eagle Creek, requesting that Eagle Creek begin the process necessary to draw down the lake which would include a safety review, permits and approvals. Once confirmation is received that Eagle Creek is ready to moving forward with permit applications and approvals, the item will be discussed by the Board of Trustees for final approval. At that time, the Environmental Commission, the Huron River Watershed Council and the Huron River Dam Network will be brought in to begin the planning process for volunteer and public information efforts.

Finally, the Coal Tar Brochure is ready to be mailed out to all residences in the Township. The mailing will be done in August, just in time for residents considering late summer sealcoating projects. Another mailing will be done in Spring of 2019.

MISSION STATEMENT
"Building a Brighter Future."
